

ABOUT BLUE GRASS

**PROUDLY
CANADIAN,
FAMILY-OWNED,
AND GROWING
SINCE 1970.**

SEE OUR PROJECTS

Blue Grass Commercial Landscaping has grown from its roots as a small sod farm outside Red Deer over 50 years ago into one of Alberta's leading suppliers of landscape materials and expertise. With operations in Calgary, Red Deer, and Edmonton, we provide high-quality sod, nursery stock, and landscape supplies to major commercial projects and municipal developments across the province.

As a family-owned business, Blue Grass combines decades of experience with a deep understanding of Alberta's climate and growing conditions. Our locally cultivated sod and nursery products are built for resilience, performance, and longevity—supporting everything from large-scale parks to urban infrastructure projects.

Our mission is to deliver dependable products, professional service, and trusted expertise that help clients create sustainable, high-performing landscapes. Guided by a commitment to quality, service, and environmental stewardship, Blue Grass continues to be the partner of choice for Alberta's commercial and municipal landscaping needs.
