

Blue Grass

PREMIUM KENTUCKY BLUEGRASS BLEND

Durable, High-Performance Turf for Active Landscapes

Premium Kentucky Bluegrass Blend is a carefully engineered sod mix designed to deliver a dense, resilient, and visually striking lawn. Featuring a balanced combination of elite Kentucky bluegrass cultivars, along with Creeping Red Fescue and Perennial Ryegrass, this blend offers exceptional durability, rapid establishment, and adaptability to a wide range of growing conditions.

Built for performance in both residential and commercial settings, it provides strong wear tolerance, excellent disease resistance, and quick spring green-up. Its versatility makes it an ideal choice for high-traffic areas while still maintaining a lush, uniform appearance.

PERFORMANCE CHARACTERISTICS

| ATTRIBUTE | PERFORMANCE |
|--------------------|------------------|
| Wear Tolerance | High |
| Disease Resistance | High |
| Drought Tolerance | Moderate to High |
| Shade Tolerance | Moderate |
| Salt Tolerance | Moderate |
