

Blue Grass

ROCKY MOUNTAIN MIX

Rich Organic Blend for Shrubs & Flower Beds

Rocky Mountain Mix is a nutrient-dense soil blend crafted from peat and composted bark mulch to support vigorous plant growth. Designed for use in shrub and flower beds, this mix offers a balanced structure with excellent moisture retention and soil conditioning properties.

Screened to 5/8" for a clean, uniform consistency, it is free from grasses and debris—making it easy to work with and ideal for both residential and commercial landscape applications. Its high organic content enhances soil fertility while improving overall plant health and resilience.

PRODUCT SPECIFICATIONS

PARAMETER	RESULT
Soil Texture Class	Loam
Sand Content	46%
Silt Content	30%
Clay Content	24%
pH	7.5
Organic Matter	21%
Electrical Conductivity	1.9 dS/m
Nitrate (NO ₃)	55 ppm
Phosphorus (P)	66 ppm
Potassium (K)	653 ppm
Sulfur (S)	280 ppm
Zinc (Zn)	6.5 ppm
Manganese (Mn)	8 ppm
Iron (Fe)	88 ppm
Copper (Cu)	1.6 ppm
Boron (B)	0.7 ppm

APPLICATIONS

Perfect for shrub beds, perennial borders, and flower gardens where nutrient-rich, moisture-retentive soil is essential.

Rocky Mountain Mix delivers the organic richness and performance needed for thriving, visually impactful landscapes.

KEY BENEFITS

- ✓ High organic content to enrich soil and support plant health
- ✓ Excellent moisture retention for consistent hydration
- ✓ Clean, screened material for uniform application
- ✓ Improves soil structure and nutrient availability
- ✓ Ideal for enhancing shrub and perennial planting areas
